EVENT OVERVIEW

A new normal is shaping the world today, and AI is undoubtedly at the center of it, both accelerating its adoption and shedding light on some of its key challenges. Bringing together some of the world's leading decision-makers, technologists, innovators, and investors, the Global AI Summit will be a unique global platform to explore what the new global era means to AI, how AI's transformational potential can be best used to create a better future for all, and what this means for policy and decision makers interested in leveraging that potential, for the good of humanity.

WHAT TO EXPECT:

- Exclusive platform to discuss and shape the global AI agenda
- Concrete recommendations on how to develop impactful national AI strategies in a post-recovery context
- Insights into AI innovations and investment trends
- Inclusive session formats enabling maximum audience participation
- Interactive discussions with some of the world's leading players in the AI space
- Inspiring and empowering visions of the future and how AI can be used to shape it

A SUMMIT DESIGNED TO:

**GENERATE
STRATEGIC INSIGHTS**

**STIMULATE IDEAS
AND VISION CREATION**

**CREATE A ROADMAP
FOR THE FUTURE OF AI**

**PROMOTE LEADERSHIP AND
MULTI-STAKEHOLDER COLLABORATION**

ABOUT THE SAUDI DATA & AI AUTHORITY

The Saudi Data & AI Authority (SDAIA) was established in 2019 as the owner of Saudi Arabia's national and artificial intelligence agenda, mandated with unlocking the value of data and artificial intelligence to elevate Saudi Arabia as a pioneering nation among the elite league of data-driven economies.

SDAIA delivers on its mandate through three executional arms: 1) the National Data Management Office (NDMO) which is the main regulator and enabler of national data policies and best practices, 2) the National Information Center (NIC) which is the main operator of government data infrastructure, advanced analytics and AI-powered insight platforms, and G-cloud services, and 3) the National Center for Artificial Intelligence (NCAI) which drives the national AI strategy execution, AI innovation and capabilities building.

SDAIA's Board of Directors reports to the Prime Minister and is chaired by His Royal Highness Prince Mohammed bin Salman bin Abdulaziz, Crown Prince, Deputy Prime Minister and Defense Minister.

The convening of the virtual Global AI Summit is anchored in the year of Saudi Arabia's presidency to the G20 and is an imperative of the digital economy agenda.
