

List of companies- B2B BiH-Hungary, 28 November 2024, Budapest

No	Company	Web site	Activity/Product/Service
1.	KNEŽEVIĆ Co. d.o.o. Banja Luka	HOME - Knezevic Company	Production of tools for injection, extrusion, stamping and blowing of plastic; injection, extrusion and blowing of plastic; casting of non-fronted metals; mechanical processing of metal;
2.	Kolektor CCL d.o.o. Laktaši	Kolektor CCL Kolektor	Basic activity of the company is design, development and production of commutators; magnetics; electronics and drives; machine building; tools.
3.	Mikroelektronika d.o.o. Banja Luka	Mikroelektronika A.D. – Providing innovative solutions since 1975	Offers a new generation of products for the control and management of electricity consumption and related software solutions; in addition to the energy segment produces fiscal systems and accompanying solutions;
4.	ZOREX trade d.o.o. Banja Luka	Zorex Trade doo Laktaši - Proizvodnja kupatilske opreme	Production of bathroom equipment; Injection moulding of plastic; Processing by milling and scraping;
5.	BLP d.o.o. Laktaši	BLP PROIZVODNJA PET AMBALAŽE	Production of PET packaging (PET preform – semi-product and PET bottles from 0,25l to 6l);
6.	ODS „Elektrokrajina“ a.d. Banja Luka	Elektrokrajina Distribucija, kupovina, prodaja i trgovina električnom energijom	Distribution system operator
7.	PZ „Dedina“ Derventa	Proizvodi DEDINA P.Z.	Wood processing industry: production of children-playgrounds, floor and wall coverings, wooden facades; sauna, pellets.
8.	„Elgrad“ d.o.o. Teslić	Home - Elgrad d.o.o.	Production and services, which include: primary wood processing final production of massive wood table and chairs (oak, beech, walnut tree...), according to orders (design solutions), just like peeled veneer, briquette and pellet production
9.	MEDENA COMMERCE D.O.O. TEŠANJ	Selma Bradarić, dipl. oec. Phone: +387 32 65 33 08 E-mail: selma.bradaric@medena.ba Internet: medena.ba MEDENA COMMERCE d.o.o. Dobropolje 3, 74260 Tešanj	Buyers of metal parts, especially companies that need machining of steel positions from 1000x1000mm to 4000x2000mm. These are companies that deal with mechanical engineering, construction of hydroelectric power plants, companies that need large tools, etc..

10.	PLAMINGO D.O.O. GRAČANICA	<p>Vernes Bešić Head of Sales (IM&POP) E-mail: besic.v@plamingo.com +387 35 365 003 00387 62 129 773 www.plamingo.com</p>	<p>Tool shop With almost 25 years of experience in tool construction and production, we offer our customers both new tools and tool transfer projects. On-site injection molding, our team of skilled operators is ready to maintain tools with cost efficiency, while also producing up to 50 projects/tools per year. Our services and technology include conventional tuning and milling; Novapax polishing system; tool construction and parts simulation; rapid prototyping (powder/PE electrodes); 3D solid modelling; HURCO processing centre; Charmilles CNC erosimate.</p> <p>Injection moulding Our founding sector is where we are most experienced. With over 50 years of working in the field, we focus on producing high quality parts and using the best materials. With Plamingo, you would quickly find reliability and flexibility, coupled with our honest integrity, to be our signature quality. Our facility boasts 6000m2 of working space, where we operate 42 machines from 25 to 550 tones (Arbug, Engel, Demag, Krauss Maffei). All machines are CNC robot operated and fed automatically from a centralised drying sytem.</p> <p>Plating on plastic Our plastic plating line is a one-of-its-kind in the Balkans. We focus on producing highest quality products, facilitated by continuous improvements in our competencies, know-how, and internal processes and procedures. Plamingo's plating line is fully automated and is based on Atotech's Adhemax process, capable of putting out 1500m2 of output per day with four-minute cycles. We also run an in-house jig construction and production shop, where we provide value-added services to our customers, while our wastewater treatment centre ensures we minimise our effect on the environment.</p> <p>Laboratory and quality control Our in-house laboratory, on-site of chrome plating, is capable of handling all standard testing requirements our customers need. Run by our educated, expert staff, we continuously keep track of our production line throughout the day, making sure all relevant factors are in their optimum range and thereby reducing our scrap rate. On the other hand, our quality control department ensures our customers get what they deserve. We run full (100%) visual control of our products continuously educating our staff on the right process. ISO9001:2015 procedures and the do's and dont's.</p>
